Chair Cane
Chair Cane, the outer bark of the rattan palm vine, is used for chairs that have a series of holes around the seat opening. The Caner's Handbook (see page 7) has great 'how-to' chair seating information. Consult chart below to determine the size Chair Cane and Binder Cane you need. You'll want: Chair Cane, Binder Cane, Caning Needle, Caning Tool, Awl and Pegs. 1,000 ft. coil is enough material to seat 4 average-sized chairs (12” x 12”). Purchase binder cane separately.

See 250 ft. coils at right for 1 chair.
